

Today's Solutions For A Sustainable Tomorrow

Crown Wallpaper & Fabrics is committed to achieving its sustainability goals; balancing economic viability with environmental responsibility. As an organization, we continue to work in partnership with our suppliers to promote effective, meaningful and sustainable best practice.

Crown is a leader in distributing quality residential and contract wallcovering and fabrics produced using sustainable materials and responsible manufacturing processes. We offer products that are considered:

- rapidly renewable • biodegradable • post-consumer content recycled

LEED™ Credits

Crown Wallpaper & Fabrics is dedicated to providing smart environmental solutions without sacrificing durability and performance. Many of our products can contribute to:

- **LEED MR 4.1** - Recycled content, 10% (post-consumer + 1/2 pre-consumer)
- **LEED MR 4.2** - Recycled content, 20% (post-consumer + 1/2 pre-consumer)
- **LEED MR 5.1** - Regional materials, 20% manufactured regionally
- **LEED MR 5.2** - Regional materials, 50% extracted regionally
- **LEED MR 6.0** - Rapidly renewable materials
- **LEED MR 7.0** - Certified Wood
- **LEED EQ 4.1** - Low-emitting materials, adhesives and solvents, if used with low VOC adhesives

Low VOCs For Better Indoor Air Quality

Crown recognizes the strict standards stipulated for healthy indoor air quality through the California 01350 Specification. Developed by the State of California to cover key environmental performance issues in the selection of building materials, Section 01350 screens building materials based on; emissions testing protocol, hazardous content, as well as mold and mildew from construction practices.
